WORK EXPERIENCE

FleekBiz - Karachi, Pakistan 2025 - PRESENT
Laravel Developer - Product Department

- Developing scalable backend systems using Node.js (TypeScript), and Python, FastAPI, PHP, Laravel, with a focus on architecture design, performance optimization, and API integration across multiple products.

82 Solutions — Karachi, Pakistan 2021 - 2025
Assistant Manager (Custom Department)

- Led and contributed to backend development using Core PHP and Laravel, delivering high-performance web solutions across diverse domains.
- Handled individual and team-based projects, designing custom websites and admin systems, optimizing databases, managing end-to-end deployments via cPanel, and ensuring seamless cross-functional integration.

HnH Tech Solutions — Karachi, Pakistan
PHP Laravel Developer Trainee (Part-Time) 2021 - 2021

- Assisted in developing PHP Laravel modules for internal tools, implemented backend logic and route structures for small-scale projects, and supported the senior engineering team in testing and code optimization.

Ask Development (PTCL) — Karachi, Pakistan 2019 - 2020
Technical Customer Support Representative (CSR)

- Handled technical support for PTCL services, ensuring issue resolution and service satisfaction while learning programming independently during the role.
